

## Millwood Horse Show.

The twenty-seventh semi-annual horse show and steeplechase, held by the Blue Ridge Hunt Club at Carter Hall Grove, Millwood, last Wednesday, July 4, was by far the best, most successfully conducted and largely attended show ever held by the Hunt Club.

All of the classes were well filled, and the character of animals shown was far above the average.

The only accident of the day occurred in the sporting tandem class when the wheel horse in the team of Burwell & Mullikin slipped on a sharp turn on the grass and fell. The horse regained his feet without injury, and no damage was done to the vehicle.

In the steeplechase for club members only, a field of five horses faced the starter, and the race, over a green course of about three miles, was an extremely pretty one. The prize, an extremely handsome silver loving cup, was won by "Fearless," owned by C. H. Basshor and ridden by Julian Day.

The judges for the day were: Harness and saddle—W. J. Carter, Richmond; Mr. Nolan, of Middleburg.

## Don't Cross Your Legs.

"The prevalence of appendicitis is an admitted fact," said a surgeon. "I have myself operated on 710 persons for the disease. Crossing the legs is responsible for a good deal of this trouble. That sounds strange, doesn't it? Nevertheless it is a theory advocated by more than one great surgeon. Indeed I know some men who say that if people never crossed their legs appendicitis would quite disappear. You see, crossing the leg squeezes and cramps the delicate vermiform appendix. Squeezed and cramped, the appendix becomes irritated. Inflammation sets in—intense pain comes. Then— presto—you are on your back, the sweet and heavy fumes of chloroform are choking you, and the appendicitis specialist bends over you with a sharp knife."—St. Louis Globe-Democrat.

## A Hard Game to Lose.

The Berryville Baseball Team went to Martinsburg last Thursday and played the Martinsburg team of the Inter-State League to a standstill for nine innings.

Robey, who had been on the suspended list for the past sixty days, was reinstated on Tuesday at a meeting of the club officers, and covered himself with glory by pitching an errorless game of ball and allowing only three hits.

With two men down in the closing half of the ninth inning, Gibbs let a long fly get away from him, and one man scored for Martinsburg, tying the score, as Berryville pushed a man over the plate in the first inning.

On a poor decision by the umpire on an out at first, the next batsman was called safe, allowing another run to score.

While the official score shows a lost game by 2 to 1, it should have resulted in a victory for Berryville 1 to 0.

Martinsburg has a good team, but Berryville outplayed them at every stage of the game. Robey allowed less hits than his opponent, and was supported almost faultlessly.

Hetzel, who pitched for Martinsburg, was not as well supported, as he might have been, and was hit safely several times.

With men on bases, Hetzel used excellent judgment.

The bright particular star of the game was Robey, and the Martinsburg world speaks of him as follows:

"The Berryville team put up a splendid game. Robey pitched like a professional, while his field backed him up in fast style. Gibbs in left and Foley at third saved several runs by good work at critical times.

Gaver, at shortstop, and Dake-man at first base, accepted 'everything in lightning style, our first baseman having to reach after several wide thrown balls.

One of the peculiar features of the game was that Walters, in right field, and Smallwood, in center, did not have an error, assist or put-out, as the Martinsburg batsman were only able to drive the ball outside the diamond eight times. Six of the chances went to Gibbs, and he only failed on one. One of the hits was over second base and the other over third base.

The local management will endeavor to secure another game with the Martinsburg team, and a big crowd ought to turn out in that city to witness the contest.

## Resolutions of Respect.

Whereas it has pleased the Supreme Architect of the Universe to remove from our midst our late Brother, F. N. Castleman; and whereas the intimate relations long held by our deceased Brother with the members of this Lodge render it proper that we should place on record our appreciation of his services as a Mason and his merits as a man; therefore be it

Resolved, by Treadwell Lodge, No. 213, of Ancient, Free and Accepted Masons, that while we bow with humble submission to the will of the Most High, we do not the less mourn for our Brother who has been called from his labor to his rest; and that in the death of Brother Castleman the Lodge has lost a Brother who was always active and zealous in his work as a Mason, always ready and willing to stretch forth his hand to contribute to the relief of a distressed Brother of the Fraternity, always devoted to the interests, welfare and prosperity of the Order; wise in council and prompt in action; an honest and upright man; whose many virtues endeared him to the Brothers and commanded the respect of his fellow citizens; now therefore, be it

Resolved, that the Lodge tender its heartfelt sympathy to the family of our deceased Brother in their sad affliction; that these resolutions be spread upon our minutes, published in THE CLARKE COURIER, and that a copy of them be sent to the family of our deceased Brother.

The net profits of the First National Bank, after running twenty-two months, is \$4,000. At the same rate for 25 years, with the same amount of business, its surplus will be over \$500,000.00, after equally dividing with our depositors, which shows the thrifty conduct of this bank.

The reunion of the "Cavalry and Horse Artillery of the Armies of Northern Virginia and the Potomac," will be held at Brandy Station, Culpeper County, Virginia, on August 9, under the auspices of A. P. Hill Camp No. 2. C. V., Culpeper, Va.

The Broad levels about Brandy will be remembered by veterans of either army as the scene of numerous conflicts, in which larger bodies of Cavalry were engaged than on any other field of the Civil War, and these conflicts were characterized by deeds of gallantry and daring never before equaled on the American Continent.

Of course all old veterans are invited to attend, but especially those of the Cavalry and Horse artillery, as it is hoped by their aid to identify localities of special interest, with a view of erecting stones or other markers, as has been done on the field of Cedar Mountain, to preserve for generations to come the historical interest which attaches to localities where great, gallant and patriotic deeds have been performed.

## New School Building Arguments.

I notice in your paper an article signed by J. T. S. of Boyce, in which he severely criticizes the trustees of Chapel district in reference to their duties in managing the school affairs of the district.

He also makes some erroneous statements which ought to be corrected. He claims that the State has made large appropriations for the benefit of the schools, and that the Trustees will not allow the people to have the use of the same.

I know of no such appropriations which the State has made.

He also says that the trustees have twice signed contracts to give them a schoolhouse. If that be the fact, why does he not force them to comply with the contract?

Mr. J. T. S. is not a resident of Chapel district and is not the proper man to dictate to the Board or to criticize its action. Therefore we will eliminate him from the discussion.

The enterprising citizens of Boyce are asking for better school facilities. In this they are to be commended, and the Trustees and County Superintendent

heartily agree with them to that extent. They seem, however, to believe in asking largely that their joy may be full.

But they ask and receive not, because they ask amiss.

Now, let us note what they are asking for.

At their first meeting they proposed to consolidate Chapel and Greenway districts and build a house jointly, the building to be paid for out of the funds of the two districts, supplemented by private subscriptions. And their speakers painted a beautiful picture of the advantages to be derived from such an enterprise, representing that such a school could be made so beneficial and attractive that it would gradually close up all the surrounding schools and draw the children to this one place.

Their arguments were so convincing that the Greenway trustees, becoming somewhat jealous, remarked that if it were possible to have anything like that, they wanted it at White Post. So they then and there withdrew and hurried home to start the enterprise in their home town, and have not been heard from since. At a subsequent meeting they demanded a four-room brick building, with a hall above (to be converted into two more rooms when needed), to cost \$4,000, and to be paid for by Chapel district alone.

In order to do that, the Trustees would have to borrow the money, and in order to pay it back they would have to ask for an increase in the public school tax.

The Trustees are reluctant to ask for an increase in taxation unless it is absolutely necessary, considering the fact that the people are already overburdened with taxation.

This is one reason why the Trustees requested the attendance of the people generally at our last meeting, and for which we have been censured by J. T. S., because we believe, as he does, that taxation without representation is not fair.

Another reason for requesting an expression from the people generally was that, if we are to have a High School in Chapel district, it is Boyce the best place for it, or would it be better in a central part of the district?

The Chapel School Board is going to do the best it can for a school building at Boy
